

## junior tennis registration options - farmington

### Here's how we do it:

- We keep the sessions small enough that your child will get consistent and appropriate feedback and encouragement from his/her Tennis Pro.
- The more often your child is on the court with us, the quicker they'll learn to be comfortable and enjoy the sport of tennis !

### Just a few options we need to decide on:

- 1) Would you be more comfortable with the sessions being Small Group Clinics (3-6 children), Semi-Private Lessons (2-on-1), or Private Lessons (1-on-1)?
- 2) Frequency: your child can work with their Pro:
  - 1x per week**
  - 2x per week**
  - 3x per week**

Sessions are between 1 and 2 hours each (depending on your child's age) and you can increase or decrease their frequency at any point.

How many sessions per week do you want your child working with a Pro ?

- 3) Children in clinics are grouped together by their age and/or ability level:
